

**TERREBONNE PARISH  
COASTAL ZONE ADVISORY COMMITTEE**

**MITIGATION PROJECTS**

---

1/15/03

**Proposed Project Location:**

Sweetwater Pond, E-Pelto Marshes Unit

T20S-R17E

**Problem:**

Marsh Vanishing due to saltwater intrusion

Note: Pond was once an enclosed system. Man-made opening to system have enlarged. Saltwater entry into system through Bayou Sale (1 cut), Bayou Four Point (3 cuts), and Houma Navigation Canal (1 cut).

System Needs:

- 1) Bank stabilization on Houma Navigation Canal - Immediately
- 2) Shoreline protection project
- 3) Freshwater introduction project - Terrebonne Force Drainage Project 3-2 located above pond
- 4) Blocking entries or reducing saltwater flow into system

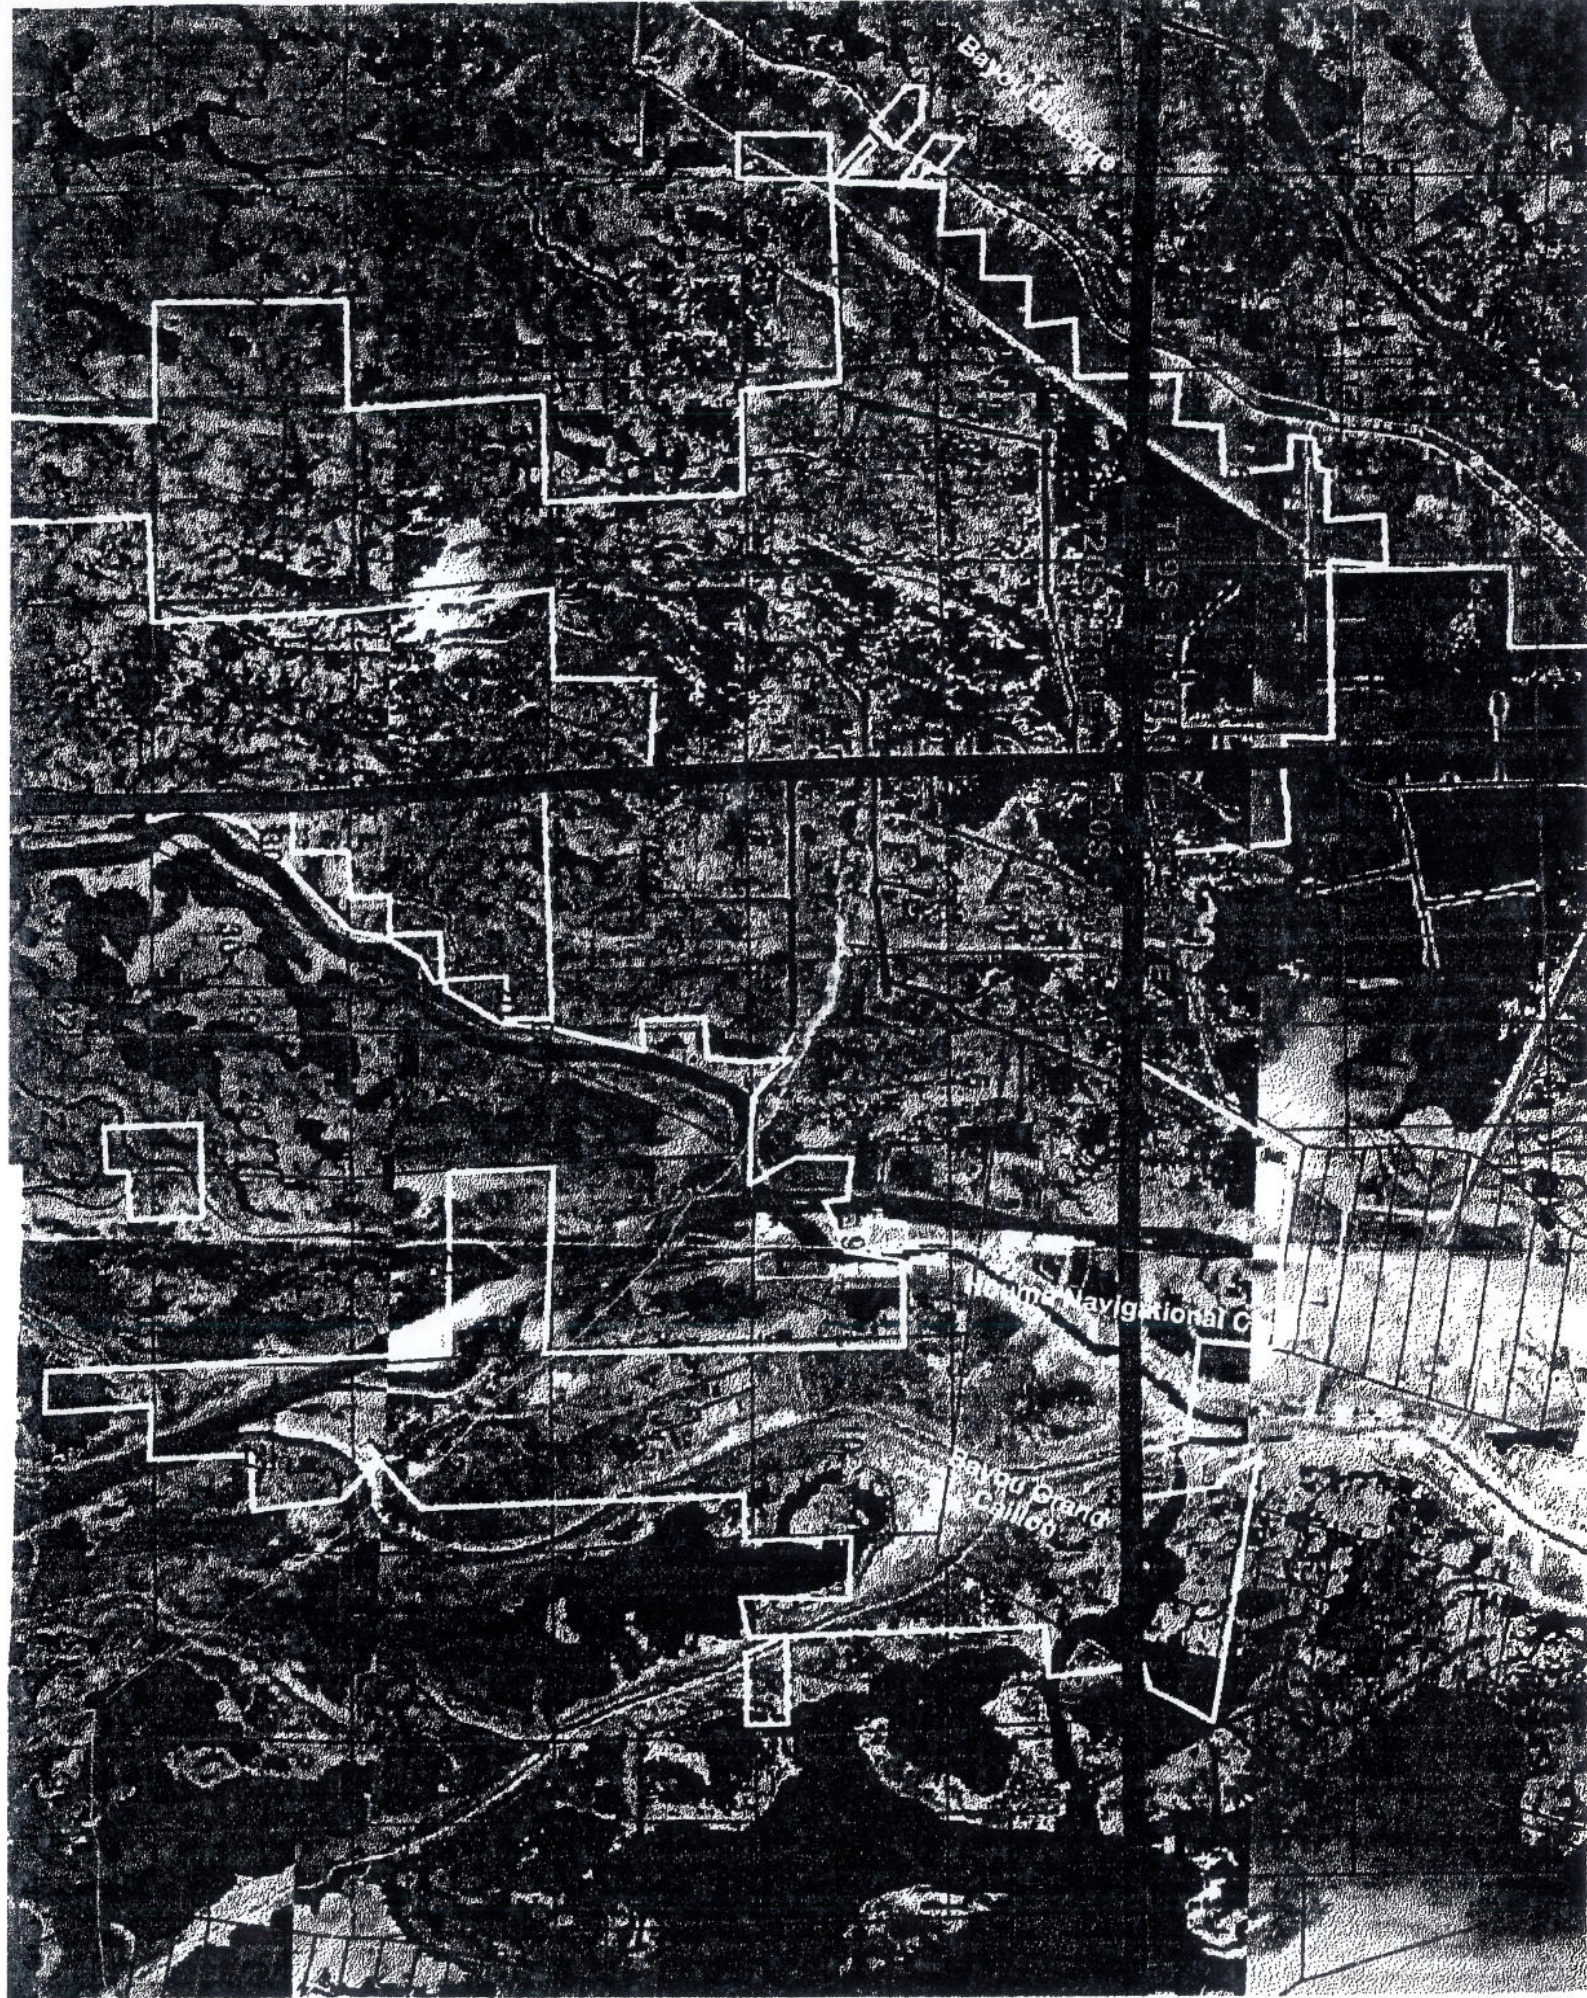

Note: Morganza to the Gulf Hurricane Protection Levee (15') will have an impact to this area if built.

Two levee alignments being considered as of 1/15/03 by Corps.

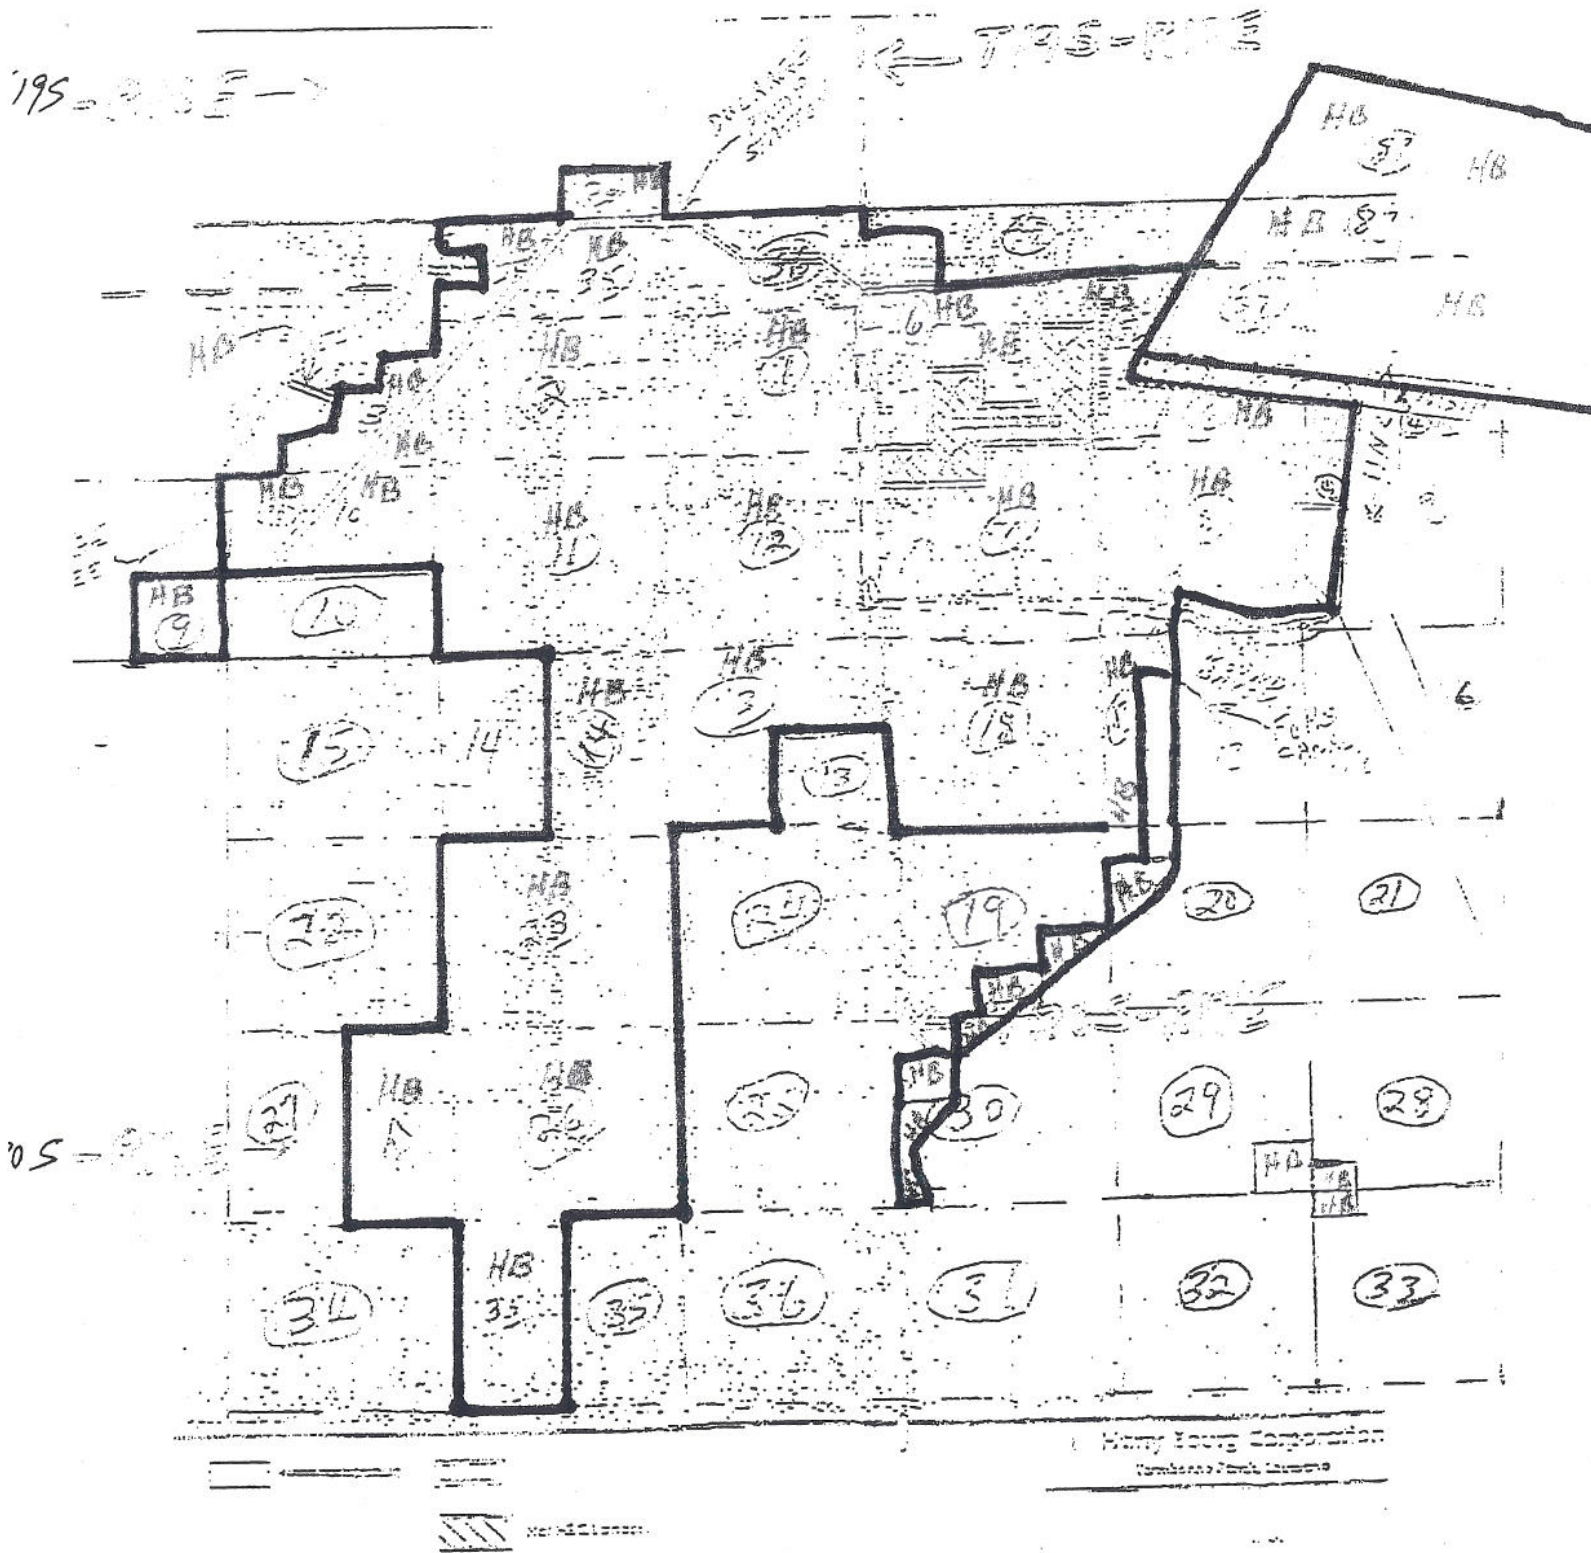

- 1) Located on east side of Sweetwater Pond
- 2) Located - will cut Sweetwater Pond in half
